

THE HUB

As Randall, owner of The Hub, told us, he named his Biker Ranch, THE HUB, because it was The Hub of one of the GREATEST places to ride

These pictures show very interesting stories

This is a Special UNABRIDGED Edition of our Trip to THE HUB May 12-15, 2011

Road News & Maintenance

Road Slides

The first road slide we encountered was on AR 7, just south of Pelsor. The whole lane had fallen down the hill, so we had to ride carefully on the other side of the road.

The next was on AR 43, just west of The Hub. It looked like they were in the process of fixing it, but the road was split up badly.

Why you should not ride on Friday the 13th

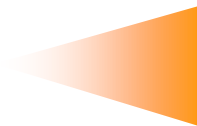

Don & I were riding on AR 23, south of Eureka. I was sleeping peacefully in the back. All of a sudden Don slams on the brakes. I wake up just in time to see a Deer dart out in front of us. Then, I heard & felt his hoof hit the front of the bike. Our bike wobbled some. WE DID NOT GO DOWN! I went back to sleep.

Road of the month

AR 341 between Mountain Home & Mountain View off of AR 14. It is called Push Mtn. About 30 miles of tight S curves and gentle sweeping S curves. It did not have many straight aways and there were no hairpin turns. Road was in good condition with plenty of shoulder room.

I asked Randall why there was a bullet hole in my window. He said "That is just the way it was." (when I bought it)
